Kerr vs. ADOR or FERC, a Supreme Court tax settlement case has resulted in the distribution of 1,538 refunds to individual income taxpayers during June 2007. These refunds totaled \$876,703* for an average refund of \$570. Attorney payments are not included in the refund amount and total \$219,855 for the month. Refunds issued as a result of the FERC case are not included in the total refunds listed in neither the "Individual Income Tax Receipts" section above nor the "Average Individual Income Tax Refund" section later mentioned in this publication.

*The amount shown as refunded may differ from AFIS totals due to timing issues.

The 2,473,456 returns representing current and prior tax years, filed through June 2007 compares to 2,373,138 returns filed during the same period of time in 2006 for an annual increase of 4.2%. For the tax year 2006 filed in 2007, 2,379,863 returns have been filed, a 4.3% increase over filings through June 2006 for tax year 2005.

Year-Over-Year Comparison of Resident Taxpayers

Comparisons of Federal Adjusted Gross Income (FAGI) and tax liability growth between two tax years can be made by using data from taxpayers who have filed for both calendar years and have maintained the same filing status for both years. The Department of Revenue has received 1,624,906 returns in calendar year 2007 for tax year 2006 from filers who also have returns on record from calendar year 2006 with the same marital status. On average, these filers experienced a 6.1% increase in FAGI and a 0.54% increase in tax liability. More specifically, 38.8% of these filers experienced a decrease in tax liability; on average a decrease of 19.9% in FAGI with a corresponding average decrease in tax liability of 40.5%. Filers with an increase in tax liability totaled 809,882 or 49.8%, with an average FAGI increase of 35.1% and an average tax liability increase of 56.9%.

"New" Filers in Calendar Year 2007

Table 1 attached to this report, presents the number of "new" returns filed in calendar year 2007. "New" returns are for those filers who did not file in the previous calendar year. Therefore, these filers could be new full-year residents of Arizona, or they may be newly required to file an individual income tax return. (The filer may not have earned enough income in the previous year to file, such as a recent graduate just entering the work force.) The table indicates that 277,863 "new" returns have been filed thus far in 2007, representing approximately 333,320 persons, not including dependents. The average Federal Adjusted Gross Income is \$22,744 with an average tax liability of \$373. The right half of this table presents characteristics of the filers represented on the returns. Of all "new" returns, 16.0% had a married filing joint filing status, 7.1% claimed a 65 and Over Exemption and 34.8% claimed dependents.

Individual Income Tax Estimated Payments

Taxpayers are required to make estimated payments if their Arizona gross income will exceed \$75,000, in an amount which will represent unpaid tax liability at the end of the taxpayer's tax year. Total estimated payments paid with form 140ES for tax year 2006 received through June 2007 was \$703.1 million, for an average of \$2,993. An additional \$135.2 million in estimated payments came from 2005 tax returns that applied their refunds as a 2006 estimated payment, for an average of \$3,079. Estimated payments received through June 2007 for tax year 2007 are as follows:

		Monthly	Cumulative
June-07	140 ES Payment \$	19,417,642	\$ 103,004,574

Withholding

Withholding payments are received from employers and applied towards a specific quarter for the designated year. Information is gathered for 15 months for any given quarter. For example, from July 2005 through September 2006, \$711.1 million was received for the third quarter of 2005. The latest complete quarter (15 months of information has been compiled) is the second quarter of 2006, which shows an increase of 24.0% in withholding payments over the second quarter of 2005. Growth in quarters for which information is still being gathered is as follows:

3 rd Quarter 2006	4.8%	1 st Quarter 2007	(8.0%)
4 th Quarter 2006	10.6%	2 nd Quarter 2007	2.4%

The current choices for withholding are 0%, 10%, 19%, 23%, 25%, 31% or 37% as the percent of federal taxes to be withheld for state taxes. The 0% option is only available to those individuals who had no liability in the prior tax year and expect no tax liability for the current year.

Property Tax Credits

Arizona allows a refundable property tax credit for those who are age 65 or older or who received Title 16, SSI payments and pay property tax on a home. To qualify for this credit, household income must be below \$3,751 for individuals that live alone, or \$5,501 for those that live with others. The maximum credit is \$502.

For example, in FY 05/06, 20.8% of the refund dollars paid were for corporate fiscal years ending in 2001 or before. The percentages are for refunds paid through the fiscal year.

Corporate Income Tax Document Count

The Arizona Department of Revenue received 125,212 corporate returns showing a fiscal year-end of 2005. The type of return received is indicated below:

	120 X (amended)	120 (regular)	120S (S corp)	99T (exempt org.)	120 A (short form)
#	190	39,637	72,116	454	12,815

Through June 2007, 67,297 documents were received for a fiscal year-end of 2006, distributed as follows:

	120 X (amended)	120 (regular)	120S (S corp)	99T (exempt org.)	120 A (short form)
#	38	15,320	44,016	163	7,760
%	0.1	22.8	65.4	0.2	11.5

The figures for the 2006 returns are most meaningful when compared to 2005 returns received during the same period of time in the previous year. Through June 2006, the Department of Revenue received 77,542 documents with a fiscal year-end of 2005. Compared to 2006 documents, the Department has seen a 13.2% decrease in the number of corporate returns processed at this point of time in the calendar year.

Urban Revenue Sharing Returned to Cities/Towns

Incorporated cities and towns receive a share of net individual and corporate income tax collections, called Urban Revenue Sharing. The amount of money to be distributed during Fiscal Year 2006/07 is 15.0% of net proceeds from Fiscal Year 2004/05 income tax. Amounts returned for June 2007 are shown on Table 2, at the end of this report.

TRANSACTION PRIVILEGE, SEVERANCE AND USE TAXES

Transaction Privilege, Severance and Use Tax Receipts

The Arizona transaction privilege and severance tax consists of many classifications of tax. These classifications include but are not limited to retail, contracting, amusements, restaurants and bars, hotel/motel and mining severance tax. The collections for all such categories are divided, per statute, into two parts. One part is called distribution base; the other part is known as non-shared. The division of collections into these two parts varies from category to category. For example, retail sales tax is 40% distribution base and 60% non-shared. In contrast, contracting is 20% distribution base and 80% non-shared. Use tax is 100% non-shared.

At the close of each month, transaction privilege and severance tax collections are aggregated by category and total distribution base and non-shared portions are calculated. The amount shown as "Use Tax" in the table below includes use tax, use inventory tax and jet fuel use tax. Education tax is in accordance with Proposition 301 resulting in an additional 0.6% education tax being added to most business classifications. The "Other Revenue" category includes county excise, road, jail and hospital taxes and various other excise taxes, such as the 911 excise tax.

Distribution of Transaction Privilege, Severance and Use Tax Receipts

Of the distribution base portion of transaction privilege and severance taxes, described above, 25% is returned to incorporated cities/towns, 40.51% is returned to counties and 34.49% goes to the state general fund with the exception of mining severance tax. All of the non-shared revenue and use tax is deposited into the general fund. Therefore, the "Retained by State" figure presented below includes all non-shared portion of transaction privilege tax, use tax and 34.49% of the distribution base collections. The education tax is distributed in accordance with Proposition 301. "Other" revenues are returned to the administering authority.
